

## 2009 BEST OF ROCHESTER AWARD

For the second consecutive year, Paradigm Environmental Services has been selected for the 2009 Best of Rochester Award in the Asbestos Consulting & Testing category by the U.S. Local Business Association (USLBA).

The USLBA “Best of Local Business” Award Program recognizes outstanding local businesses throughout the country. Each year, the USLBA identifies companies that they believe have achieved exceptional success in their local community and business category. These are local companies that enhance the positive image of

small business through service to their customers and community. The USLBA was established to recognize the best of local businesses in their community. Their organization works exclusively with local business owners, trade groups, professional associations, chambers of commerce and other business advertising and marketing groups. Their mission is to be an advocate for small and medium size businesses and business entrepreneurs across America

## ESDC AWARDS MIDTOWN ASBESTOS CONTRACTS

Rochester Business Journal  
May 21, 2009

Rochester-based Paradigm Environmental Services Inc. has been contracted by the Empire State Development Corp. for air-monitoring services for asbestos

work at Midtown Plaza, officials announced May 21, 2009. Paradigm will provide monitoring and air sampling during asbestos removal, decontamination and demolition of buildings, officials said.

“Today marks a significant milestone in this development effort as we are now able to start preparing the Midtown site for demolition,” said Dennis Mullen, the Rochester-based upstate president of ESDC. The two contracts are being funded by ESDC through a \$55 million state grant.

“I am pleased that the abatement contractor will be putting local people to work and that the air monitoring contractor is a city firm,” Rochester Mayor Robert Duffy said in a statement. “It is vitally important that we use local workers in this stressed economy.”

Environmental remediation and asbestos abatement is scheduled to begin next month and take 13 months to complete. Demolition contracts are scheduled to be awarded in September, with work scheduled to begin in November.

## ASP & CATEGORY B DATA PACKAGES

Paradigm is in full production for “Validatable” and “Category B” environmental data packages. We have spent the last year preparing our data handling and report processing systems to make this possible. Now, in addition to our routine and “rush” sample capability, we are able to provide you with all the raw back-up data and summary forms needed for third party validation. We are continu-

ing to use our standard SW-846 and wastewater series methods, and will provide you with summary data reports in the same 5 day turnaround. Contact Marshall Shannon at (585) 647-2530 for more information.

## LIFE SAFETY SERVICES

The confinement and containment of smoke and fire in a building is one of the most difficult aspects of fire protection. Proper installation of UL approved firestopping materials at the time of construction reduces the exposure of building occupants to the dangers of fire. Life Safety Services (LSS) was started in 2006, as a division of Paradigm Environmental Services, to address the principle tenets of

the New York State Uniform Fire Prevention and Building Code. LSS is a specialty firestopping contractor that is currently working on new construction projects in New York, Maryland, Virginia and Washington D.C. LSS is proud to be one of the only firms that has two FM 4991 Approved Designated Responsible Individuals (DRI's), Eric Green and James VanThof.

LSS has recently formed a service division to assist health care facilities comply with the Joint Commission Accreditation of Health Care Organizations (JCAHO) audits.

## PARADIGM'S NEW SIGN

In 2009, Paradigm unveiled a brand new logo. Normal Communications, who provides advertisements on the RTS buses, was retained to install the four foot diameter sign in our signature round window of 179 Lake Avenue.
